DETAILED ACTION

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Joseph Flerlage on May 12, 2010.

Claims:

22. (Currently Amended) A non transitory computer readable medium containing program instructions for causing a microprocessor to execute a method for use by a trader in an electronic trading system that includes at least one computer terminal connected over a network to at least one electronic exchange, comprising:

receiving from a trader a first order message having an order to buy or sell a quantity of a first tradeable object at a first price and a market event request, the first order message received at a first electronic exchange having a first computerized matching process configured to match orders for the first tradeable object, the market event request including a condition and an associated predetermined action to be taken on behalf of the trader, the action including sending an order to buy or sell a second tradeable object to a second electronic exchange having a second

Art Unit: 3691

computerized matching process configured to match orders for the second tradeable object; detecting the condition at the first electronic exchange; in response to detecting the condition, sending a second order to buy or sell the second tradeable object on behalf of the trader from the first electronic exchange to the second electronic exchange, wherein the second tradeable object is different from the first tradeable object, wherein tradeable objects matched at the first exchange are different than tradeable objects matched at the second exchange, and the action of sending the order is taken on behalf of the trader by the first electronic exchange using a microprocessor executing one or more instructions.

Allowable Subject Matter

Claims 1, 2, 4-9, 11 and 22-30 are allowed.

The following is an examiner's statement of reasons for allowance:

The most relevant reference, the *Adatia* reference, fails to disclose a method and corresponding non transitory computer readable medium for sending an order to an electronic market comprising:

sending a second order to buy or sell a second tradeable object from the first electronic exchange to the second electronic exchange in response to detecting the condition, wherein the second tradeable object is different from the first tradeable object, and, tradeable objects matched at the first exchange are different than tradeable objects matched at the second exchange.

Updated searches revealed no references that disclosed the claimed invention, nor were any secondary references identified which could be reasonable combined with *Adatia*.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
